DISAGREE AGIN, SO WHAT'S NEW ... ?

One of th' modern wonders of this World has been th' fact that th' OPEC oil cartel has survived for ten years. Anybody with a smidgen of knowledge of history knows them Ayrahs, Afrikans and South Americans have about as much in common as spiders & flies, but th' easy money they could pry outta th' parts of th' world not blessed with ample oil sort of cemented their project together.

Like most newly wealthy folks th' OPEC countries aint handled their money too well in most cases and they have also grown more greedy for th' better things in life, or what they consider better. About th' only things th' Ayrahs agree on completely is their distaste for Christian Inldel Dogs and Israelites. On this they git a standin' ovation every time, otherwise they

Kansas City Economist Duncan Expects More Opportunities in 1983, Improved Demand For Farm Commodities, Restrained Recovery

There will be "a little improvement" in net farm income in 1983, with most of it coming in the livestock economy, Kansas City Federal Reserve Bank Economist and Vice President Marvin Duncan said here recently.

There will be "many opportunities" for the livestock industry in the 1980s and '90s and beyond, he said. To bring the entire farm sector back to prosperity, there must be an improvement in world-wide demand for agricultural products and at least a short-term decline in farm expenses, Duncan told the annual meeting of Livestock Marketing Association.

DUNCAN

Predicting a "restrained" U.S. economic recovery beginning the second quarter of this year, Duncan said this will "set the stage" for extended economic growth with a period of "relative price stability."

However, Duncan cautioned, not only the U.S., but the world economy must rebound for the agricultural sector to recover. And 1983 will not be a good year for the agricultural chemical and farm implement industries, he said.

This prediction was tied to Duncan's assessment of the new payment-in-kind (PIK) program in the grain sector. As acreage is reduced, demand for chemicals, fertilizers and farm machinery will be dampened, he said. PIK is a "logical conclusion" to the growing problem of over-production of grain, although the benefits from the program, in the form of increased grain prices, probably will not be realized until 1984, he said.

Although the economy did not perform as well in the last quarter of 1982 as economists had hoped, "there were the stirrings of economic recovery," as auto sales, housing sales and housing starts began "turning upward."

The gross national product should grow from 1.5 to 2.5 percent this year, which Duncan labeled a "very restrained" economic recovery.

Duncan also said that the growing federal deficit "hangs over the economy like a dark cloud," and "unless we do something," the deficit will get larger as far into the future "as you care to look."

Along with a prediction that President Reagan will be forced to cut the

defense budget, as well as the rate of growth in Social Security benefits, Duncan also forecast tax increases both this year and in 1984.

Turning to the world trade picture, Duncan said, "In troubled economic times countries look to protect their own markets." He labeled this move as "very dangerous," saying it can lead to a "spiral of offsetting protectionist measures" abroad.

In response to questions, Duncan said: "He did not think the 'social fabric' of the U.S. will accept double-digit unemployment 'forever.' He did predict unemployment of over 10% through 1983, and said he felt his definition of 'full employment' means an unemployment rate of 6-8% percent."

The federal government can live with its projected large deficits "for a long, long time, but the economy can't function very well with them," Duncan said that "unless we get some final decisions made about bringing down the federal deficit, I don't see the economy performing well much beyond 1983."

There is the prospect for some reduction in interest rates. However, an improving economy will bring increased consumer loan demand, helping to boost rates.

How-To In Crop-Swap Plan Told by Texas Wheat Producers

Steps Necessary to Participate, Dates For Action, Limitations Outlined in Rules, Regulations by Association

Last week the Texas Wheat Growers Association released the outline of procedures under which grain producers can participate in the Crop-Swap, or Payment in Kind arrangement for reducing surplus grain supplies. The necessary steps and rules are presented here concerning the plan announced by President Ronald Reagan and his Secretary of Agriculture John Block.

Payment-in-Kind (PIK) for wheat, milo, corn, cotton, and rice was announced by President Reagan at the American Farm Bureau meeting in Dallas and further explained in detail by Ag Secretary Block in Houston at

the Convention of the National Association of Wheat Growers. Principal details as released are enclosed for your information and study. These are the questions we have been asked most:

Q. Is there a floor price under the PIK grain? A. No.

Q. Can the PIK acres be grazed? A. Yes. Both PIK and RAP acres can be grazed "to the soft dough." Dates to be set by county committees.

Q. Can PIK grain go back in to the loan or reserve? A. No. NOTE: that the 1983 reserve loan has been reduced from \$4.00 to \$3.55, the same as the regular loan.

Q. Will deficiency payments be made

on PIK grain? A. No. (TEXAS WHEAT is requesting reconsideration of this point in order to attract greater participation and make for a more effective program. At this time we have no encouragement or assurance that it will be done.)

Q. Where can more exact and additional information be obtained? A. All County ABCS CED's will have received instructions and materials on the program by Friday, the 21st and be ready to answer questions and start sign-up Monday, the 24th. A public meeting will be held with Congressman Kent Hance, Asst. Secy. of Agriculture John Ford and State ABCS SED, Wayne Mayfield in Hereford, Friday, January 21, at 7:00 P.M. at the Community Center.

A toll free USDA number is also available — 1-800-368-5942 — 7:00 A.M. to 7:00 P.M. (CST) daily.

An Extension Service computer analysis participation work sheet will

be available from County Agents and this office after January 24th.

Signup

1 — Signup will begin on January 24 and end on March 11, 1983.

Producer's Alternatives

1 — To participate in the PIK program, farm operators must enroll in the previously announced acreage reduction and required land diversion program.

2 — Operators may enroll the farm in the 10-30 percent of the base PIK.

3 — Operators may bid on the whole base for the farm.

4 — Producers who are projected to receive deficiency and diversion payments in excess of the \$50,000 limit may request a reduction in the required conservation use acreage, or may request PIK at 50 percent of the farm's effective yield for the applicable commodity on the conservation use acreage.

that would have been reduced.

Enrollment

1 - PIK contract must be signed by March 11.

2 - All producers who share in the PIK must sign the contract.

Whole Base Bids

1 - The amount of base accepted will depend on sign-up, the supply/demand situation for each commodity, conditions in the local community, and other relevant factors. However, in no event will the amount diverted exceed 50 percent of the total base for the commodity in the county.

2 - Bids will be made as a percent of the farm's program effective yield.

3 - CCC reserves the right to reject any or all bids.

4 - County ASC committees will open bids on March 18 and arrange them in order from the lowest percentage of the yield bid to the highest.

5 - No bids will be accepted that exceed the percent of the yield offered for the 10-30 percent PIK.

6 - If bids are to be accepted in the county, they will be approved in order until the county limitation is reached but not exceeded.

Storage Payments

1 - In order to provide the producer marketing flexibility, CCC will pay storage from the PIK availability date to the loan liquidation date, not to exceed 5 months.

2 - Producers that liquidate farm-stored FOR loans will be eligible to receive a payment equivalent to 7 months storage. Payments will be made on the date of receipt of payment in kind and will reflect any unearned storage.

Compensation

1 - Compensation for the 10-30 percent PIK will be the announced percentage (85 percent for wheat and 80 percent for corn, grain sorghum, rice, and upland cotton), times the farm program yield, times the PIK acreage.

2 - Compensation for the accepted whole base PIK contracts will be the bid percentage times the farm program yield, times the PIK acreage.

3 - Compensation for the reduced conservation use acreage feature for producers subject to the \$50,000 limitation will be 50 percent of the farm's program yield times the conservation use acreage that would have been reduced.

4 - Compensation will be in standard amounts for grain (No. 1 wheat, No. 2 yellow corn, No. 2 sorghum) or the historical area average quality for rice and cotton.

Conservation Use Acreage Eligibility

1 - Producers who have planted wheat before PIK program announcement will be permitted to graze or hay the conservation use acreage before the disposal deadline.

2 - In summer fallow areas, summer fallow acreage designated for PIK must be land that was or would have been planted in 1983.

3 - Other eligibility requirements will be the same as for the previously announced program.

Producers With Commodities Under Loan

1 - Producers entering PIK with outstanding price support loans (regular or reserve) must make their commodity pledged as security for their loans available to CCC for use in the PIK program.

2 - The quantity made available must at least equal the quantity they would receive as PIK. Adjustments will be made for quality and grade.

3 - Producers have 5 months from the PIK availability date to choose which loan to liquidate.

4 - Loan liquidation will be on the same day the producer receives the commodity.

Producers With No Commodity Loan

1 - Producer has 5 months from the PIK availability date to accept title to the commodity.

2 - The commodity will be available at the warehouse of the producer's choice depending upon CCC's ability to locate the commodity at the warehouse.

3 - Rice and cotton producers who are active members of a coop will receive their PIK through the coop.

4 - After taking title, the producer is liable for all storage and other charges.

made for quality and grade.

3 - Producers have 5 months from the PIK availability date to choose which loan to liquidate.

4 - Loan liquidation will be on the same day the producer receives the commodity.

Producers With No Commodity Loan

1 - Producer has 5 months from the PIK availability date to accept title to the commodity.

2 - The commodity will be available at the warehouse of the producer's choice depending upon CCC's ability to locate the commodity at the warehouse.

Seaberg Ranch Announces Phase IV Sale for Spring

Seaberg Ranch, Wharton, TX, has announced their Phase IV offering of registered Brahman cattle. In making this announcement, John Joyce, partner and general manager of Seaberg Ranch, states that the sale site for this event will be at Angelo's Fisherman's Wharf on South Main Street in Houston, TX. The sale is scheduled for 6:00 p.m. on Tuesday, February 22.

Phase IV will consist of 26 bred heifers and 10 herd sire prospects, all halter broken. Most of the cattle in the sale are the result of the Seaberg Ranch embryo program.

Approximately 20 of the heifers offered will carry the services of, or are

sired by, Mr. Seaberg 217, the highest priced Brahman bull sold at public auction to date (\$840,000). Several heifers in the sale are either sired by or carry the service of Register of Renown bull JMD Eleante Manso 226-3 or 1W's Rex-crate 206.

"In this sale, some of the best genetics available in the Brahman breed will be offered. All of the animals have met and passed the most demanding standards ever set for a purebred Brahman seedstock sale. The 10 herd bull prospects are the best set of bulls we've ever produced," notes Joyce.

A special attraction of the sale will be the pick of one of the top three embryo heifer calves born on Seaberg Ranch during the fall of 1981. These three full sisters are sired by Mr. Seaberg 217 and their is the leading embryo cow for the ranch, Miss Fare 189-1.

The sale will be held prior to the Brahman activities at the Second International Brahman Show and the Houston Livestock Show and Rodeo. Audiences for the sale will be Joe Mitchell of Hubbard, TX.

For more information, contact John Joyce, Rt. #2, Box 232, Wharton, TX, 77488 or call (713) 842-2035 or 677-2212.

Fed Cattle Mixed, Hogs Mostly Lower At Markets Monday

(CONT. FROM PAGE 1)

The Eastern Cornbelt points stronger. Monday's estimate cattle kill at 124,000 was off 1,000 compared with last week but 6,000 ahead of a year ago. Butcher hogs declined from around 25.50 cents to as much as \$1 to 1.25. Monday's

Proposed SS Plan Double-Whammy For Farmers, Ranchers

(CONT. FROM PAGE 1)

Bureau Federation President Robert Delano said today.

"Under the bipartisan Social Security Commission report, self-employed farmers will have to increase payments 43% to meet the combined rate levied on employers and employees," Delano said. "In addition, farmers with employees will have to pay the increase in Social Security taxes on themselves and their employees that has been accelerated to next January."

Those two factors, the farm leader said, constitute a "double whammy" for a sector of the economy already reeling in large part, because of government policies. "While the government is trying to redress its past mistakes by getting rid of surpluses and promoting farm exports, this latest tax increase will surely reduce net income for the nation's farmers and ranchers," Delano said.

Increasing Social Security taxes without significantly cutting the growth rate of benefits, Delano noted, "doesn't get at Social Security's basic problem: It is overly generous with benefits in relation to what's contributed into it." The newest plan, he asserted, "concentrates almost exclusively on increasing revenues, without getting control of the program's cost."

In addition, the farm leader said, "the commission's solution doesn't deal with the fact that there has been a relatively shrinking pool of workers supporting an expanding group of retirees. In 1950, there were 16 workers paying for each retiree; today there are only three workers paying for each beneficiary. In 50 years, there will be only two."

That problem, Delano said, "seemingly is the wild card in all this, as the commission failed to come up with what it said was needed to get Social Security through the next 75 years." Delano said it is "unthinkable that Congress consider more tax increases for a long-term solution instead of freezing benefits at current levels until basic defects in the law can be corrected."

estimated hog kill at 289,000 was 19,000 under a week ago and 11,000 below a year earlier. Mud continued to be a factor in the cattle trade.

Price trends, quotations on choice and prime steers and heifers and good to choice mixed steers and heifers and Holstein steers and US 1-3 hogs scaling 200 to 280 pounds included:

Commodities Comment

Week Ending January 21, 1983

For several weeks now most commodity prices have been on the rise. The "bulls" have been pointing to a U.S. economic recovery and lower interest rates.

Houston. Selling will be three super donor cows and twenty-five super donor heifers. Cattle will be available for preview February 21 and 22 in the hotel lot.

For information contact Lee McKellar, Owner, Rt. 5, Mt. Pleasant, Texas 75456, office 214/572-9182, residence 214/572-2200, Lockie Gary, Manager.

feeder cattle should hit the mid \$70 range pretty quick now. That looks like a good trade. At this writing March hogs closed at \$84.42, April hogs \$85.55, April cattle \$80.92, and May feeder cattle \$80.87.

The metal complex should be close to a near-term top. The entire metal market appears vastly overextended and a sharp break should be near. I still feel that 1983 will witness tremendous "bull markets" in the so-called strategic metals. But when trading the metals one must be quick or end up dead. The washout in prices that I feel is near should take about 3 to 4 weeks to run its course. So if you must be a buyer... be careful... the bulls are about to take some heat. At this writing April gold closed at \$402.50, April silver \$12.80, April platinum \$461.70, and June palladium \$122.70.

This year should be a great one for the speculator. There are many opportunities ahead for the quick and the imaginative. The trick as always is not to get discouraged. In other words, don't lose all your money on one trade. Keep your powder dry... there's always another opportunity ahead.

on hedging or speculating in the future market, please contact Jerry F. Welch at (314) 436-3800, Jerry F. Welch, Mansion House Center, St. Louis, Mo. 63102.

P.S. Keep your eyes and ears open regarding talk about the federal deficits. If there is any chance that interest rates could go up a point or two before another decline, a sharp price break in all commodity markets should occur.

and local dignitaries and Country & Western greats Willie Nelson and Merle Haggard.

The feature of the auction and the top selling service at \$150,000 was the Thoroughbred stallion, Storm Bird by Northern Dancer. Storm Bird stands at Ashford Stud, Versailles, KY, and the service was purchased by R. D. Hubbard, Wichita, KS. Hubbard also was the buyer at \$55,000 for a service of the very popular Dash For Cash standing at Phillips Ranch, Frisco, TX.

Funds from the auction will be used to inform and to promote horse racing.

as a sport and the significant economic contribution it can make to the Texas economy.

B. F. Phillips, Jr., president of the Texas Horse Racing Association, stated that, "a recent New York Times article pointed out that the horse racing industry is in a period of transition and that the Sun Belt states are enjoying an unprecedented economic boom from the horse industry. Yet Phillips said, "Texas isn't a part of that boom. Texas has the largest horse population in the nation, estimates run as high as 287,000 Thoroughbreds in the state, and 127,000 owners and jockeys live in Texas."

With the recent decision by Oklahoma to legalize racing, all of Texas' neighbors have approved the sport. New tracks are expected in Oklahoma within a few years. South of the border, Nuevo Laredo plans to open a track this spring. And Texas account for up to 60 percent of the crowds at the tracks in Louisiana.

Antiques Show In For Fort Worth During Stock Show

The 28th Annual Fort Worth Area World Wide Antiques Show and Sale to be held January 29, 29, & 30, 1983, at the Tarrant County Convention Center South Bay Exhibit Hall - will be "one of the nation's finest." It was announced today by Van D. Crowson, Manager.

Displaying top quality merchandise for the sale in almost every category, antiques will be sixty exhibitors from twelve states, including some of Texas' finest.

Included will be displays of the world's best art glass, cut glass, sterling silver, silverware, china, jewelry, music boxes, porcelain, food molds and French cameo glass, in addition to outstanding antique furniture from all periods and styles in oak, pine, walnut, fruitwood, toys and dolls. Fine prints and rare Chinese and Japanese Orientalals will be a feature of this year's Show. Another feature is sterling silver pattern matching. Bring a spoon for free pattern identification! Modern antique and absolute patterns may be purchased at very substantial savings - 40 percent to 80 percent off.

"We're pleased to have so many fine exhibitors in this Show," said Crowson. "Both beginning and long time collectors can learn something from our Show. We'll have the greatest selection of antiques ever assembled under one roof," he continued.

"Prices will also vary, with items from just one dollar, so there's something in every price range," Crowson said.

World Wide Antiques has sponsored Shows all over the country for thirty-six years. The Fort Worth Show will be open from Noon to 9:00 P.M. daily, and from Noon to 6 P.M. Sunday. Admission is \$2.00. Tickets are good all 3 DAYS OF THE SHOW.

Las Lomas Ranch Becomes Partner In Resolution

Buffalo — Las Lomas Ranch, Buffalo, Texas became the most recent member

of a four-way partnership which owns the outstanding polled fullblood Simmental bull, Resolution. Dave Swalm, owner of Las Lomas, joins Harry Stafford and Josiah Wheat of S Bar W Simmental Ranch, Woodville, TX, Tom Ringer of Ringer Ranch, Cody, WY, and

RESOLUTION

Dick Willard of Blazing Tree Ranch, Bellevue, WA, in owning this extremely modern, dark red herd sire.

"We know Resolution is a bull that will improve our program," said Swalm. "His color, ring-eyed and polled traits will have just the right effect on our herd and we're hoping for a 60% polled factor out of the cross. His breeding should bring good prices in the sale ring and we expect to see some tremendous calves out of him. His first calves will be hitting the ground this spring," continued Swalm.

Resolution is a Zaluson son out of Polaris Regal 81K. There is currently a great deal of Zaluson blood in the Las Lomas herd and Resolution's influence will serve to complement the color and also contribute to the polled factor. Resolution has the long, clean, structurally correct traits which are expected from his offspring. Resolution is the only polled fullblood "new generation" Simmental bull.

Diamond C Ranch & Georges Creek to Sponsor Tour

Diamond C Ranch and Georges Creek Ranch will co-sponsor a tour of their ranches on Sunday, Feb. 6. This will be an added attraction to the American Simmental Association's Annual Convention and National Show in Fort Worth.

The tour will begin at 8 a.m. with buses leaving the Hyatt Regency Hotel for Diamond C Ranch. Lunch will be served at 12:30 p.m. at Georges Creek Ranch and the group will return to the hotel at 3 p.m.

Simmental Field Day And Gregory Texas G Bull Sale, March 12

Sulphur Springs, Texas — The Northeast Texas Simmental Association and Gregory's Texas-G Ranch will conduct a joint field day and Simmental Bull Sale, Saturday, March 12, 1983. The activities will be held at the Sulphur Springs Civic Center in Sulphur Springs, Texas.

The Simmental Field day will begin at 9:30 a.m. and features Dr. Steve Hammack, Extension Livestock Specialist. Dr. Hammack will discuss crossbreeding systems. Charles Rollins, well known cattle judge will critique many of the sale bulls.

The Gregory Texas-G Ranch Bull Sale will begin at 1:00 p.m. The sale will feature 70 head of Simmental bulls from 18 to 24 months old. These bulls are from 1/4 blood thru fullbloods and come from the certified brucellosis free Gregory Texas-G herd.

For information contact Marvin and Betty Gregory, Gregory Texas-G Ranch, Rt. 4, Box 149, Sulphur Springs, Texas 75482, 214/885-4882 or 214/885-6998.

National Western Simmental Results

Nickerson & Stough, Charlotte, MI, lead Generation III to the championship Simmental bull honors at the 1983 National Western Stock Show in Denver. Reserve honors went to HSP Shogun 80M, owned by Highfield Stock Farms, Okotoks, Alberta, Canada.

In the female division, New Breeds Industries, Manhattan, KS, had the champion with Keapoke. The reserve was Circle B Miss 28N, an entry of Circle B Cattle Co., Geneseo, IL. Circle B Cattle Co. also won the get-of-sire, premier exhibitor and premier breeder. Producer-of-dam winner was New Breeds Industries, and Colville Jackson-Kintyre, Gloster, MS, won the breeders group.

Standing Room Only Crowd for Angus Pen And Carload Show

The Angus pen and carload bull show at the 1983 National Western Stock Show in Denver saw a standing room only crowd. Angus breeders watched judges Jim Bradford, Guthrie Center, Iowa; Greg Butman, Pipestone, Minnesota; and Keith Russell, Plattville, Colorado, select champions from the seven carloads and 17 pens exhibited.

Slagle Angus, Sargent, Nebraska, returned again this year to win the grand champion carload title. The reserve grand carload banner went to Summitcrest Farm, Summitville, Ohio.

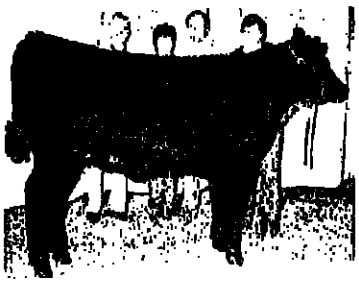

In the pen competition, The Baldridge Place, North Platte, Nebraska, earned grand honors with calves by Loma Lanes Cracker Jack 12J and a pen of Dr. Spock calves claimed the reserve grand champion title for TC Ranch, Franklin, Nebraska.

Angus Crossbreds Sweep Champion Honors At National Western

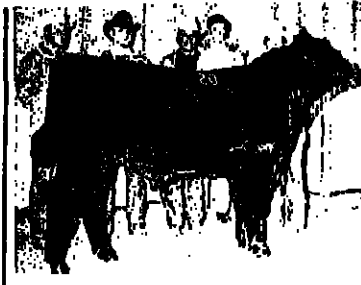

Angus crossbreds swept all interbreed steer show grand championships at the 1983 National Western Stock Show.

A Stock Show record price of \$30,050 (\$24.38 per pound) was paid for the grand champion steer at the show. The 1,235 pound Angus-Chianina cross named Charlie was shown by Monty Fariss of Leedey, Oklahoma. Buyer was Nicky's Restaurant of Estes Park, Colorado.

The champion Angus steer in the show, judged by Bill Jacobs, San Luis Obispo, California, was shown by Todd Honer, Alva, Oklahoma. The steer weighed 1,311 pounds and sold for \$2,326 per pound. The reserve champion Angus steer was shown by Jack Moore, Warner, Oklahoma. It weighed 1,202 pounds and brought \$1.85 per pound in the auction of champions.

The top-selling female at the 1983 National Western Centennial Angus Sale in Denver sold for \$90,000 to Belle Point Ranch, Lavaca, Arkansas. Owners, Windy Acres Angus, Harrison, Nebraska, and Bert Skou, Buenos Aires, Argentina, sold one-half flush from six confirmed pregnancies by Dr. Spock from the National Centennial grand champion female. Pictured, left to right: Belle Point Ranch owner Dave McMahon, daughter Julie, Windy Acres owner Warren Wackman and manager Jerry Fitzgerald.

Top-selling bull at the 1983 National Western Centennial Angus Sale in Denver was the bull calf and reserve grand champion of the Angus sale bull show held the day before, Gunston High Jacker, consigned by Gunston West, Lampasas, Texas, brought a bid of \$32,500 from Bruns Angus Farm, Madison, South Dakota, and Lettunich and Sons, Payette, Idaho. Pictured, left to right: Gary and Dan Bruns, Mike Lettunich, Gunston West owner Robert Mason and manager Pat Scheer.

Top Females Added to Centennial Angus Sale

The 1983 National Western Centennial Angus Sale in Denver had an added feature this year — the selling of a limited number of outstanding females and flushes from the champion females.

When auctioneer Ray Sims' gavel fell for the last time, the 42 lots grossed \$289,500 to average \$6,893.

The females were the first to sell. Eight were sold for an average of \$16,838. The top-seller was the National Centennial grand champion, Windac Class 1762, Windy Acres Angus, Harrison, Nebraska, and Bert Skou, Buenos Aires, Argentina, offered one-half flush of six confirmed pregnancies by Dr. Spock. She sold for a top dollar of \$60,000 to Belle Point Ranch, Lavaca, Arkansas.

Thirty-four Bulls Sold for an Average of \$4,563

With the bull calf and reserve grand champion of the sale bull show bringing \$32,500 from Lettunich and Sons, Payette, Idaho, and Bruns Angus, Madison, South Dakota, Gunston High Jacker was consigned by Gunston West.

Two Texas breeders, River Oaks Ranch of Belton and Bobb Angus of Richardson bid \$9,600 to own the

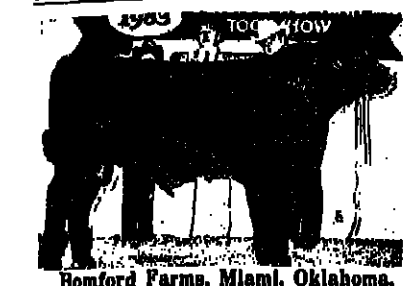

National Western Centennial Show Draws Large Crowd

Hundreds of Angus enthusiasts were in attendance for the once in a lifetime event — the National Centennial Angus Show which took place during the 1983 National Western Stock Show in Denver, January 13-15.

Directors from across the United States, Canada, and Brazil, competed for the coveted grand champion bull and female titles of this 100 year event. Howard Hillman, Canova, South Dakota, placed the 284 Angus that were paraded across the tankard in its stadium arena.

Reigning as the National Centennial grand champion bull was last year's reserve grand winner, High Voltage, a son of Ken Caryl Mr. Angus 8017, the senior champion is owned by Buckle & Krebs, Gordon, Nebraska; McCook Angus Ranch, Cameron, Montana; and Gold Block Angus, Boyl, Montana.

It is shaking the other oil producers pretty bad and they have got the world's bankers on tranquilizers around the clock as those billions & billions of dollars the money men have out around the world look more and more like the common variety of Bad Debts.

There has been a lot of this OPEC oil money recycled into various countries and projects and some of the better projects in the non oil countries have feathered their nests rather more than well. However, this trickery has not been half as strong as when the Big Oil Boys were buying that Ayrah oil for from four bits to maybe \$2 per barrel before the Ayrahs caught on.

How the whole thing is gonna come out is anybody's guess. The OPEC Boys are split nine ways from Sunday by various religious sects, racial splits and a general trend toward plain ordinary opportunism.

The Situation makes us feel a little like that famous Old Maid who bought a ticket on every horse in the race and then sat back yelling "come on anybody". We just might share her joy and come out with a winner, but who?

Ever think, The Editor.

P.S.: The seriousness of the Social Security Mess is appreciated by one and all according to Uncle Dunk, but he says there is something a little bit humorous in watching the politicians who made the mess try to clean it up. It would be difficult to find a hotter potato any place or any time. Dunk says the efforts of all of these special interest groups to get together and pressure the Govmint & Congress to throw in with 'em on their pet peeves is like mixing oil & water. The emulsifier just ain't there yet. Dunk figures the average taxpayer would not object paying whatever it takes to get the country moving again, but they also don't figure they can print enough money to make the Govmint and Congress spend it wisely. Politicians are on record as the worst money managers ever seen on this earth - Thassell, Brother!
